Into a cash making machine

3 STEPS ONLY

THANK YOU!

In an effort to improve my products I have revamped UltimateMoneyMultiplier

[UltimateMoneyMultiplier](#) is here and its yours!

I pride myself on providing methods that work! There are those that assume that a 6 page report lacks value.... In my opinion I would much rather cut out the bones and give you the meat. Yes my reports are short but who wants to swim through a bunch of contrived drivel just to get to the nuts and bolts of any system or method? I hope this is not how you perceive value.

I am here to assist you in turning these methods into cold hard cash. If you ever have any questions then please email me, I'm are here to help.

I get thousands of emails every day from people all over the world and I respond to all of them. If you email me I will get back to you just give me some time. When you purchase one of my products you get free updates for life. I NEVER send out or sell information or methods that I myself have not tried and tested. Case in point the UltimateMoneyMultiplier method has generated my company over \$15,000 in revenue this week alone. (and no that isn't just from UltimateMoneyMultiplier sales)

Tried, true and tested.

In **UltimateMoneyMultiplier** I have added 2 additional phases to the method that will skyrocket your earnings and the best part is I show you how to make money without spending one cent to get you started.

A couple of things I want to touch on.

My refund policy I feel is very clear. Simply put, Use the system for 60 days, if you don't make any money with it I will refund your purchase price.

So to add a little more clarification **my refund policy** *does not* apply to the following:

1. Buyers remorse.
2. Tire kickers
3. Skeptical response

I honor my refund policy once the criteria is met meaning:

1. 60 days has passed
2. The method has been used
3. No money has been made using the method

When requesting a Refund please confirm that you have met the above criteria. If you have then please contact me to request your refund. Please provide me with your email address and transaction ID once I have confirmed the purchase and the purchase date I will issue the refund directly.

It is also my policy that any disputes filed with paypal are to immediately escalated to a claim. The reason for this is pretty simple, I am in business to help you but I also have to take a position to protect myself. Because my products are a digital download and an off ebay product it is not covered under buyer or seller protection. Once escalated to a claim paypal closes the case in favor of the seller within minutes. Disputes that have been escalated to a claim have an adverse effect on everyone involved.

I have been forced to adopt this policy for one reason, To prevent fraudulent refunds from occurring.

**Warmest Regards,
Mike**

UltimateMoneyMultiplier

The fact is if you're one of the thousands of people that click ads daily on paid to click sites, then you are not one of the people that are making any real money with paid to click sites. The very fact that you have purchased this report is a testament to this statement. By purchasing this report everything you're about to read is 100% validated.

There are three specific groups of people involved in paid to click sites, the site owner, the advertisers, and the folks clicking the ads. Quite honestly of these three groups only two of them are truly benefiting from the site. That of course the site owner and the advertisers. The Harsh Reality of business is the fact that nobody does anything out of the goodness of their heart. What this means ultimately is that paid to click advertiser will not use the site if they are not seeing a good return on the investment and of course the site owner is going to pay its users the absolute bare minimum to keep them coming back.

So this of course leaves you in a very unique situation you can either become a site owner or you can become an advertiser. This of course involves extensive costs in setting up and maintaining as well as advertising your site to gain both users and advertisers. Seeing a return on this initial investment can take months if not years. The obvious choice of course is to become an advertiser. This is not as hard as it seems in essence all you really need is a product, sales page, a payment processor and the content locker. And this is what your going to learn in this brief report. I'm going to show you how to develop a product, how to package the product, how to advertise a product, and how to deliver that product to a starving market that will devour your every word.

This is a down and dirty report there is no fluff in nearly no graphics is a step-by-step how-to method to make real money using paid to click websites.

Step One: The product

Okay let's be honest my product is of this report. In all honesty this report has took me all of about 20 minutes to put together. But that doesn't mean that it isn't valuable because it only takes 20 minutes to write down three simple steps that produce results. It doesn't take much to create a product. Because our target audience is paid to click site users tell us two things for the most part they have a very limited budget and the are desperate to make money. So open up your word processing application of choice and begin writing about any methods tips or tricks you may have to make decent money online. I use openoffice because it has a built in feature that converts your document into a PDF file and the software is free at <http://openoffice.org> A good trick for this is to research ezine articles. It doesn't have to be a long report just informative.

You are not allowed to sell this pdf without my permission. In case of violation a fee will be charged!

Step Two:

Now that you have a product head over to e-junkie you will find them at <http://ejunkie.com> they have a one week free trial take advantage of that upload your file and set your price for it (*remember to keep your price low*) now build a sales page you can do this on sites like [yola](#) or blogger for free or you can buy a cheap .info domain and use this [free web hosting](#) and create your own this is the best method as you do not have to worry about you site being flagged and taken down.
([Click here for free web hosting](#))

You are not allowed to copy my sales page, in case of violation a fee will be charged!

Step Three:

So now you have a product and a site head on over to a trusted PTC site like NEOBUX and buy about 5 dollars worth of advertising. I use micro exposure because if you have a catchy headline it will grab attention no matter what. Now sit back and wait! BOOM instant profits to you Paypal account! Keep reinvesting money into more and more PTC traffic and on occasion switch up your sites and offers.

See I told you this was simple! Put this into practice!

You will go from making a few cents a day to HUNDREDS possibly THOUSANDS every single day! Day After Day! The real struggle is creating sales copy that gets people to act.

Just think for a min what was it about my web page that made you buy? This will help you create your sales page.

Best of luck to your success,
Mike
